

COAL LAB1

Name: Abdul Sami Qasim

Roll no: 22I-1725

Commands:

- `mount c: ~/Downloads/masm`

This command makes a mountable drive connected to masm where our files are located

- `c:`

This command takes the terminal to the newly formed c: drive, where our files can be accessed easily

- `masm test.asm`

makes .obj file of the .asm file

- `link test.obj`

links libraries to the object file

- `test.exe`

executes the executable program

```
Run File [test.exe]:
List File [nul.map]:
Libraries [.lib]:
Definitions File [nul.def]:
LINK : warning L4021: no stack segment

C:\>test.exe

+  ||-@=!+L=! Hello world

C:\>mount c: ~/Downloads/masm615/BIN
```
